Your Best Outreach at Scale

AI-powered Outbound with Clay:

Automating Research and Personalization

Think of your best salesperson.

Now imagine 10 of them working at the same time, 24/7!

We will explore how Clay can replicate what already works and turn it into a scalable workflow.

What you will learn:

- How to replicate your best outbound workflows
- How to automate prospect research and identify the right accounts and contacts
- How to run AI-powered enrichment and message generation
- How to deliver personalized outreach at scale
- How to grow pipeline without increasing headcount

Stay after for pizza, drinks, and GTM networking with Budapest founders and revenue operators.
